

DXN LIFE

EUROPEAN SPECIAL EDITION

HAPPY HOLIDAYS, DEAR READERS!

Here's a dose of motivation from our top leaders to fill the holiday spirit with positive health&wealth vibes.

We feel very excited about the next year because many fantastic new things will happen in DXN. We just listened to Mr. Teoh's presentation here in the Philippines and he talked about the new opportunities. A new headquarter will be built in Malaysia which will feature a conference hall and apartments for the international DXN business builders to stay in, even for longer periods. DXN is also building a huge new factory in India which we will have the opportunity to visit next December during the ITSI trip.

And what we are the most excited about is that while most of the network marketing companies focus still on food supplements and cosmetics, DXN is showing a completely new direction towards food. People want to eat healthy food every day and DXN is offering a very wide range of healthy food. This is a huge opportunity on the market for all of us. We can definitely say that DXN both in stability and in product development anticipates its competitors and this gives us immense confidence regarding the future of our business.

We wish everyone happy holidays and a successful new year!

Advent is the most wonderful time of the year. We decorate our house and wonderful luminaries of light shine everywhere. The aroma of roasted chestnuts and cinnamon flows on the streets. Not only will our home be beautiful, but also our souls will be preparing for Christmas. We have reached the goals we had planned for the year. It is good to think about the success we have achieved and the plans we have for next year. We focus on ourselves, our family. We welcome our loved ones with small gifts, delicious food and many DXN products next to the Christmas tree. Who gives well, loves well. Christmas is the time of joy. Take the time to enjoy the holiday.

This is an important time in our lives, because we close the year and open the next. The New Year has not begun on January 1st, but already in the past years. For us, it started when we started the DXN business. 2020 will be a year of prosperity and of achieving dreams. We trust that you too have already set your goals and that you are planning your year soon. Are you waiting for the New Year? We do, because we will have a wonderful year!

We wish you a happy preparation, a happy holidays and a successful new year rich in DXN levels.

Christmas is coming soon, which always fills us with excitement, but with the same excitement we are preparing for another important event. In April we celebrate the 11th anniversary of the launch of DXN in Europe, which is also the 11th birthday of the Hungarian network.

Over the past 11 years, countless personal success stories across Europe have proven that the DXN business building can provide long-term stable life and passive income to anyone who envisions their future in the MLM industry.

And what are we still very enthusiastic about?

The popularity of our coffees is uninterrupted, and the expanding range of the products and the proliferation of Ganotherapy offer many new exciting opportunities for the years to come.

Dear fellow DXN Leaders,

As a year that will mark our success in DXN approaches, we are happy to be together with you in the joint effort to make DXN one of the greatest MLM companies in Europe, as it is globally.

I can remember clearly, 7 years ago in Dubai, when I stated that DXN will be the next \$1B company and that happened 3 years ago. What is next? Probably the \$2 billion! Now, we need to be part of it. We need to Advertise a strong message and show the Difference of DXN.

We need to Train all and establish deep roots in DXN. Finally, what we must do, is make big Seminars with Excitement to show our love and passion!

Let's do it!

Thanks to the DXN products I get the most beautiful gift for Christmas this year. Good health for me, my family, my friends and my clients.

If your physical, mental and emotional body works properly, you can intensively pursue creative work that fills you, meet your family and friends in joy and well-being, as well as enjoy your hobbies and relaxation.

Thanks to the long-term rent from DXN, I can experience Christmas and the end of the year without financial worries and choose gifts for my loved ones without looking at price tags.

Thank you very much DXN for these beautiful gifts and I wish the company many more successful years in Europe, as well as anywhere else in the world.

Year 2019 was as wonderful as every year in DXN before because I found out that my best motivation in the MLM system and in DXN is myself.

I have started to analyse that I need to be more enthusiast to be followed by my members. It is not enough to register people who are motivated for a moment. I have started to read motivational books, read by millionaires of MLM and another areas, e.g. Robert Kiyosaki, Kim Kiyosaki, Said-murad Davlatov.

I ascertained that the MLM system is about communication. When I open my mouth, I have orders. When I talk about it with enthusiasm, my clients also accept it with enthusiasm.

I am very proud that I can do service everywhere and at any hour. Every day, I am closer and closer to become a CA and I want to follow my dream in 2020, too.

Make a stronger commitment!

As 2019 is coming to an end and a new year is on its way many of us are full of expectations and dreams. For the year being left behind, I think we need to answer the questions "how active we and our partners had been" and "how close did we get to achieving our goals"?

Changing our lives depend largely on commitment, because commitment is the choice we make every day to stick on our decisions. Therefore commitment determines whether we will change our lives. When a new year comes people usually wish their life to be improved for the better. But the question that comes with the new year wish is how committed are we to make the changes happen?

We shouldn't be afraid to raise our commitment level as commitment means getting out of our comfort zone. When the commitment is strong, the obstacles look smaller. When the commitment is weak the challenges grow and the biggest obstacle may become ourselves. Let's decide to stop being our biggest obstacle and to improve ourselves. Let's become the example for our networks because our partners need examples.

I wish a happy and productive new year to all DXN EUROPE family!

Good morning DXN Europe!

We are happy to take part in these festive messages.

It's the end of the year and it's time to take stock. We certainly could have done better, but what counts is to consolidate our lines by inspiring confidence and the awareness that we are a GREAT COMPANY with a potential that many still cannot imagine.

Six years have passed since we registered. Many people have entered our network, many have left. But one thing is certain: the COMPANY ALWAYS GROWS.

This is the guarantee that always keeps our DREAM alive: WE WANT DXN Europe to become the largest world market. We want other countries to look at us appreciation.

In Europe we have all the numbers to do great things with DXN.

Good morning DXN!

First of all I want to wish you a Merry Christmas and a prosperous year 2020.

When the Christmas season arrives, it is time to think on what we have achieved in the last year and set new goals for the future, and that is when I give greater value to what I have achieved: "Health, Wealth and Happiness". That's why I want to thank Dr. Lim and everyone who makes up the DXN family.

When you see this change in your life, then you take this mission as yours. It is wonderful to be able to share our passion with thousands of people and help them improve their health, earn more income, achieve freedom and above all, achieve their dreams.

I thank God that 7 years ago I decided to take this path with DXN, because thanks to that my life has changed. I met my wife in Colombia while working on developing my network in Latin America, and now we have a family project, we support, complement and work hard to continue helping thousands of people every day.

I know that I must set ambitious goals, work for them, be consistent, support my team in their duplication and share my passion with thousands of people. For which I must be more professional every day and as DXN says: "don't look to the left, don't look to the right, just to the front".

As a leader from Poland I have a special message for you. Focus on positive people and build genuine business.

I am the best example that dreams can be true. I am sure that if you want you can achieve all your goals with DXN. Starting from zero I have built a huge network in Europe. Why?

Because the DXN products are very effective, because we have great online tools, we have a stable MLM plan and a strong One World One Market strategy. Europe is like a flower bud. It is time to bloom. I believe that as a great DXN Europe team we will show the world our strength.

Christmas time and New Year 2020 are coming. I wish you health and happiness in this special time.

See you on the top!
