DXN PROGRESSING FURTHER

Good morning DXN!

We are now going through development at such a rapid pace. A lot of new projects have been planned and implemented in all over the places over the world by us. One of our latest product is Boulder Valley. Boulder Valley is a glamping area located in Teluk Bahang, Penang and was acquired by DXN in early 2019. The luxurious campsite offers you great opportunity to get closer to nature as well as relaxing from your hectic and busy lifestyle in the city. And special to our distributors, affordable and worth paying for packages were offered to them to ensure that our dearest distributors get to stay and enjoy the beauty of Boulder Valley at a significantly lower price. But, only 1000 packages are offered, so get yours today to enjoy the beauty of Boulder Valley and unwind your mind at a cheaper rate. With the tagline One World One Glamping, Boulder Valley is a must place to visit.

With over 70 DXN branches in over 180 countries, we will soon be hitting another significant breakthrough by expanding our business and gaining foothold in the Central Asia region, the home to countries such as Uzbekistan, Kazakhstan, Turkmenistan and many more. Planning has been made and our

team is now working harder than ever to make it happened. With the new market that soon to be opened in the Central Asia, we are hoping that our products and its benefits will reach more people especially to the people of Central Asia, and also for our concept of health, wealth and freedom to be spread, enjoyed and benefited by more people from various parts of the world and at the same time, for our distributors to broaden and diversify their network and business. At DXN, we take pride in our commitment, adherence and devotion to provide to the needs of our distributors across the globe.

Another latest project of DXN is the Kimono project. This socio-economic project is aiming at helping the cotton farmers in Telangana, India. The cotton cultivated by the farmers will be bought and used to make the kimono. 10% of the profit from the selling of the kimono will be used in helping the farmers' welfare. This project is carried out to bring about the message of peace and prosperity to everyone. The kimono too will unleash the message of happiness can only be built in us by building the happiness of the people around us. DXN Kimono comes in 2 colors, white and blue and suitable to be worn by men or women.

Other than that, more new products have been produced by us to cater to the need of our customers. DXN Komb-B, DXN Moricinia, DXN VCO-L, and DXN Zhitea are among our latest

products that have been carefully planned, researched, produced and launched to ensure that our loyal customers and distributors get the best products that will help them not only to improve their health, but also life as a whole.

See you at the top.

Thank you.

Ms. Mitchie Manuel Periabras

Country Manager
Nigeria

A NEW ENTRY IN THE DXN FAMILY: NIGERIA!

DXN opened the Nigerian market in November 2019. This market is the new rising star of the company with endless possibilities, willing to work business builders and a dedicated, enthusiast country manager, Ms. Mitchie Manuel Periabras, who we absolutely had to interview for this issue!

7 WRITTEN BY
Pálma Zs. Krusinszki

1. Good Morning Ms. Mitchie. Please introduce yourself to the European readers.

Good Morning DXN!

My name is Ms. Mitchie Manuel Periabras. I am the Country Manager/PIC of DXN Nigeria. I am from the City of Pines, Baguio City, Philippines.

2. How was the opening of the Nigerian Market?

First and foremost, we must thank our Founder and Chief Executive Officer, Datuk Dr. Lim Siow Jin for his confidence in and approval of the Nigerian project. Without his approval, DXN would not have started in Nigeria.

The Nigerian market has its peculiarities and opportunities. Starting business in Nigeria can be challenging but also very interesting. The people, the competition, the atmosphere, all intertwined to make the mood for serious

business.

The opening of DXN in Nigeria went through its ups and downs but we all know the strong will and passion of DXN when it comes to doing what we know so well. We ensured we went through the rigours of being knowledgeable in the set laws as regards the business we have come to do.

We started the sales from our Guest House facility here in Lagos, Nigeria,

on Wednesday 16th October, 2019. We actually moved into our Office Facility a week later amidst on going renovation work.

Yes, we couldn't even wait for renovations to be concluded because members were seriously on us for the business to commence.

We had meetings with the leaders and other stakeholders to agree on a launch date.

The actual launch of DXN Nigeria took place on Friday, 1st of November, 2019 amidst pomp and pageantry. It was a highly successful event with the presence of our International Marketing Director, Mr. Jijith N.K.

The cream de la cream of network marketing in Nigeria also graced the occasion. It was really interesting to see and hear people's expectations on what DXN is ready to offer Nigerians and in all, it was a wonderful event. People tasted our products especially the coffee and were very impressed. We even gave an instant promo to members and prospects for a trip to Malaysia!

All that needs to be done is for a member to do 1300PPV and be a star Diamond by the end of February, 2020.

Initial sales at the commencement of operations is very encouraging and we expect increase in the numbers in the coming months.

DXN has come to stay in Nigeria and I am so happy!

3. Which products are currently available in Nigeria? Are there others coming in 2020?

Products currently available in Nigeria are:

Reishi Gano (RG) (90 Caps/Btl)
 Ganocelium (GL) (90 Caps/Btl)
 Reishi Gano (RG) (360 Caps/Btl)
 Ganocelium (GL) (360 Caps/Btl)
 Reishi Mushroom Powder (70g/Btl)
 Spirulina Capsule (90 Caps/Btl)
 Spirulina Capsule (360 Caps/Btl)
 Spirulina Tablet (120 tab/Btl)
 Spirulina Tablet (500 tab/Btl)
 DXN Lingzhi Black Coffee (20 sachets /bag)
 DXN Lingzhi Coffee 3 in 1 (20 sachets /bag)

We are currently expecting initial stocking for the following products:

DXN Morinzhi (285ml/Btl)
 Gano Massage Oil (75ml/Btl)
 Ganozhi Toothpaste (150g/Tube)

We have gone ahead to introduce the FS Combo (another promo) into the Nigerian Market which is a combination of RG 90, GL 90 and Spirulina 90's products with a PV of 100 either for Kit redemption or monthly maintenance.

We have commenced procedures for new products registration and we are looking at over 10 new products to be

introduced into the Nigerian market soonest, possibly this year, 2020. We are currently in talks with the authorities and we know in due time, the good news will come.

4. What are the main challenges on the Nigerian market?

There are challenges with a lot of aspects as regards the Nigerian Terrain.

High cost of doing business especially in the area of electric power and basic amenities. All these are available but at a high cost mainly due to provision of these items by private companies.

Infrastructural limitations are also a challenge in the Lagos vicinity especially with the ban on certain vehicles used for road transportation. This can affect our members disposition to training programmes.

Implications of these are that, they may affect forecasts and information credibility from time to time. Members do not take kindly to it but we do our best to manage the situation.

However, one major challenge we are experiencing now is the need for proper product and marketing plan knowledge of our members.

A lot of members do not come for training and this is affecting quality of sales to prospects and consumers.

The potency of our products cannot be over-emphasised. The products are state of the art and very good for the body. So we are getting a lot of patronage from re-buys and references.

But we know we can get more if our members know what to say and understand the business.

5. What is an average day like in your DXN life?

Well, work resumes in the Nigerian office at 9am each working day.

In DXN Nigeria, there is no dull moment. We have engaging leaders and that is a lot on my plate.

I liaise with HQ Malaysia regarding issues of relevance. I represent the Company in various events as may be necessary. I train distributors and prospects. I engage with various stakeholders and vendors to ensure we get the best deals.

An average day for me in DXN Nigeria can be hectic, can be interesting, can be fulfilling, all rolled into one! I enjoy the twice a week aerobic programme we do in the office and it contributes

in putting me in good shape. I eat DXN, sleep DXN, drink DXN and talk DXN! I have gotten a lot of exposure working in DXN and I am eternally grateful for that.

6) Which are your personal favourite DXN products?

I love the Lingzhi Coffee 3in1. They refresh and energise me for the tasks ahead.

I also love the Spirulina Capsules & Ganocelium. They balance my system and enable me to feel really cool. My

blood flow ensures a healthy body structure and no heart issues. I can tell you for free that with these products by my side I am alert and my mood always feels positive.

The DXN products are amazing!

7. Please give a piece of advice to business builders willing to work with Nigerian people.

Nigerians are very hospitable and accommodating people and can be of very good assistance in ensuring your business is successful. They are hard working and the Nigerian is a goal getter any day.

The major bane the Nigerian has is in the area of inadequate infrastructure and inoperative policies by authorities. It is advisable to get acquainted with the laws of the land as it obtains in doing business in Nigeria, as this will thoroughly guide you in meeting the right people in whatever you engage to do in Nigeria.

Nigeria is a land of opportunity and highly recommended for foreign investors to come and invest.

DXN American Leadership Camp

Las Vegas
December 15-19, 2019.

DXN DREAMS COMING TRUE: AN INTERVIEW WITH TÜNDE AND SZABOLCS CZÉRNA

DXN always recognizes the great effort, determination and hard work of the successful leaders. It can even take you to your bucketlist places!

7 WRITTEN BY
Pálma Zs. Krusinszki

1. How did you prepare for the journey?

We felt very honoured when we were invited as speakers to DXN's American Leadership Camp in December. The location was Las Vegas, that was absolutely on my bucketlist. The camp took place at one of the best hotels of the city, the Hotel Encore at Wynn. We were very excited about this journey. I have never been to the USA, my husband, Szabolcs took a 2-weeks-trip to the West-Coast 18 years ago. Back then he promised me that he would take me to see Las Vegas. I'm so grateful he joined DXN because we owe this journey, the exclusive location and welcoming to DXN. This company is a dreamfactory!

We held one presentation at the Camp. We had 1,5 hours to tell our

story and to speak about our strategy, how we build the business. You may think it is easy to write all this into a presentation, but it's not. We spent long days preparing it with the pictures so it was ready by the deadline. When it was done, we started to organize our private programme.

Mr. Prajith, the coordinator of the American region and the organizers

were very kind. They made it possible for us to stay longer in Las Vegas. Since the Camp was the week before Christmas, we decided to use the extra days before the Camp, we arrived 3 days earlier.

The hotel was 15 minutes walking to the main sights of the city. The first day we went sightseeing by running; we ran 17,5 kms on the famous Las Vegas Strip. The second day we woke up by dawn to drive on Route 66 and visit the incredible Grand Canyon. We will never forget this sight! On the third day we participated at a guided bus tour.

2. Tell us about the event!

The American Camp lasted 5 days and saw the participation of North and South American leaders. It is not easy to describe the atmosphere! The joy, the smiles and the enthusi-

asm of the participants really got to us. The audience kept cheering their countries and the mood was overwhelming. We could learn from awe-

ness of its leaders. The mission of DXN is health, wealth and happiness. And this is just the beginning! Thank you for inviting us, we hope that with our presentation we contributed to the Camp's success.

3. What surprised you the most in Las Vegas?

At the Camp in the first rows there were only Crown Ambassadors and Crown Diamonds and above. You could tell that they live a good life, are motivated and committed. The members of the staff were the masters of ceremony and did a great job animat-

mind and helps to take good decisions.

4. Is there any message you took home with you?

I really hope that very soon all the European members will hear about the Sunya. During the event first Dr. Savera talked about it and then also Dr. Lim spoke about the importance of this special meditation. We learned about the techniques and one morning we participated at a Sunya programme guided by Dr. Lim.

The message we took home is enthusiasm, vision, power, the simplicity of the business, focus and collaboration.

5. What is your DXN life like now?

We really recharged in the States, mentally and physically. We are in a very active period. We use the power and enthusiasm we received in the

some leaders and as Europeans we could share our experience. We loved every presentation, there is a lot of

ing the audience. The collaboration, respect and appreciation between the members of the staff and the

USA everywhere we go and we talk about the experiences to everyone we meet. Besides building the business in Hungary we focus with big energies on building it also abroad.

6. Has your business building method changed in the past 5 years?

No, basically it has not changed. There are new techniques that we are testing now, but it will not change the most important thing: show the business and the products to more people possible. That is it.

7. What are you focusing on in 2022?

This year we are concentrated on leveling up. We will celebrate two new Diamonds by the end of the year. This is our plan.

work and determination behind every success. It worth to work with DXN in every corner of the world. Not only the local leaders but also Dr. Rajesh Savera. Mr. Theo, the Crown Ambassador Savellano couple from the Philippines and our CEO and Founder, Datuk Dr. Lim held presentations. Dr. Lim talked about the secret of this dynamic growth on the American continent and informed us about innovations, new products that will keep us different from our competitors. This is a company looking not only for profit but also for the happi-

leaders of the American continent was surprising.

It was a pleasure for us to spend a lot of time with the Savellanos. There are many similar things in our lives and we have a lot in common. We respect and love them a lot.

It was a great joy that for the first time in our lives we could sit with Dr. Lim at the table during the Gala Dinner. We touched serious and funny topics, talked about Sunya meditation that helps to create harmony, clears the

November 25, 27 and 29, 2019.

A BIG LEAP TO ULTIMATE SUCCESS – MR. LÁSZLÓ KÓCSÓ IN THE PHILIPPINES

The Philippines has always been a busy and fastly developing scene for DXN. Last year they invited Mr. László Kócsó, the first European and the fastest DXN Crown Ambassador for a series of events. Let's read his summary about it!

7 WRITTEN BY
László Kócsó

Before heading to the Philippines, I held presentations in Dubai and Abu Dhabi. It was a fantastic experience to be hosted again at DXN Middle East's guest apartment on the 60th floor of the Burj Khalifa building! Then after an 8 hours long flight I finally arrived to the Philippines.

I had already met numerous business builders from the Philippines before, it was a pleasure to meet them again.

I arrived to Manila, the capital. It is a busy city with many traffic jams. The day after my arrival I participated at the Diamond Gathering, an elegant gala dinner with live music. I also took the stage to share some thoughts with

the participating business builders. We set a new Morinzhi record because we drank Morinzhi in 71.

It was a great pleasure to meet again the business builders, our CEO and president Datuk Dr. Lim and Mr. Teoh. The following day was an incredible experience for me. We celebrated the 20th anniversary of DXN Philippines in a big hall with about 4000 participants. The event was all about recognition. The business works very well here, the network and the turnover are huge, we recognized numerous business builders on stage. We went on for a very long time because the enthusiasm was sky high, everyone wanted a photo together, but I gladly participated in this.

Then I held a several hours long train-

Morinzhi together and then I flew back to Manila.

I would like to thank Mr. Mel for the professional organization and carrying out of everything, the management did a great job. They are very professional, they work and think together with the leaders.

After my programme in the Philippines ended, I traveled to Kuala Lumpur to have a Morinzhi together with the local leaders. I met my sponsor, Mrs. Jane Yau as well and had a successful event here too. I flew back home filled with amazing memories and enthusiasm. It was fantastic to see

ing in Manila. We had hundreds of participants. They listened to me carefully and with curiosity, I felt honoured by their attention. I received very good feedbacks after the training.

works in a very different way than in Europe, there is no home delivery, they buy the products at the local Service Centers. These small local offices

Then we flew to Cebu City, where the local leaders welcomed me with great affection. I'm really grateful for the

the passion and the enthusiasm of the Filipino DXN members, they had a huge impact on me. The market there

are also a platform for social life there. The members are happy and start every event saying a prayer together. They immediately felt enthusiastic

way they hosted me. I held a long training here too and then I was off to Davao, the city where my good old friends, Mr. Osler Sto Tomas was born. He visited Europe many times to share his experience with us. I would like to thank the local Crown Ambassadors' warm welcoming. I visited the local Service Center, held a long training again. The next day I visited Paradise Island and had breakfast with Mr. Osler there. This island is true to its name: the water is crystal clear and the view is amazing. We also had a

about the Morinzhi drinking and started to do Morinzhi challenges. They send me videos in which they drink Morinzhi, dance and sing.

Thank you for inviting me and I wish great success to everyone!

DXN Poland Winter Camp

22-23 February, 2020

Warsaw

WINTER DXN CAMP IN POLAND

Poland is the new exciting and busy DXN scene! The amount of events and new members is impressive, the enthusiasm is sky high. Here is the tale of the very successful winter camp!

7 WRITTEN BY
Anna Binek

I am really happy that this camp was so powerful. It is always a big challenge to plan everything properly, the venue, the schedule, menu and additional attractions. Now we can say that we have achieved 100% success.

In fact we had a short time for organization and we were uncertain if people would be interested in attending. A big part of the program was about business and the majority of the Polish members are consumers.

The consumers focus mainly on the products' benefits but the leaders should know how to do business. Anyway we decided to organize the business part mostly because strong leaders can build strong a group. We love consumers but we focus on leaders, people who can build people. The main topic of this event was: DXN the way to health, wealth and financial freedom. This two-day-seminar was

full of knowledge and entertainment.

The following four special guests were invited to Poland: Mr. László Kócsó Crown Ambassador, Ms. Daisy Yuson DXN's Business Intelligence Manager, Mr. József Katona European Coordinator, Mr. Szabolcs Czérna Crown Diamond.

The place, Hotel Boss was really a good choice. Located not in the city center but, near the forests, very com-

fortable and it featured good quality rooms.

In my opening speech, I introduced our speakers and I shared my story emphasizing why I joined DXN and why it is worth to work in MLM.

The first speaker was Mr. József Katona. His topic was "MLM as a great tool to achieve financial independence". He has shown how to earn money in DXN, he described in detail

the Car Incentive Program. His message was clear and very motivated.

The second speaker, Ms. Daisy Yuson held a presentation on "DXN products for our health and beauty".

Ms. Daisy has explained why our natural products are so amazing and why we should use them on a daily basis. She spoke about the differences between RG and GL and about the benefits of drinking coffee with Ganoderma. Spirulina, Cordyceps and Lion's Mane were also widely described by Ms. Daisy. She looked so fresh and her skin was so bright we could easily believe that DXN cosmetics are excellent!

Storytelling is a great tool in professional speeches. Mr. László Kócsó's topic was "A few stories that can help you achieve success".

My experience is that prospects will remember true stories more than active components of Ganoderma. When you start your journey with DXN you will have your own experiences. Sharing these will make you sound more credible. Your own experiences connected to using the products and your story are crucial to your success. If you are a beginner you can use Mr. László's and other leaders' stories.

In the second part Mr. László Kócsó was very excited and also we were full of energy when he taught us how to spread our network to other countries. With one code we can build our MLM business not only in Poland, not only in Europe but also in the USA, Asia and Africa as well. Using simple methods like social media, we can find leaders in other regions.

I am a proof of that these methods work and are worth learning, I found Mr. László on the internet.

Mr. Szabolcs Czérna's presentation added a great amount of value to the program. It was like a movie, he shared his personal way to become a Crown Diamond. He had a serious problem with his knee and doctors didn't give him hope for being an active sportsman. However, he believed in himself and step by step, with systematic training and great endurance he achieved his goal. He conquered pain, focused on his goal and became successful. Not even he could run but he is a marathon runner. He spoke about his trip to Las Vegas, a DXN sponsored trip. He inspired us by sharing his own story of success.

On the first day we had a break with lunch (the menu was excellent) and in the evening Gala dinner, disco and bowling.

As a leader I understand that integration is very important. I see how people feel, how they grow after such events. Knowledge is one side but talks with leaders, direct contact with them are real values which make people stronger and more convinced.

On the second morning I was surprised that after the disco of the previous

night so many people came to practice Qui Gong with Olga Dzidowska, the master. She taught us how to boost our energy, and how to balance the body, how to breath and how to start a new day with a positive attitude.

On Sunday Polish leaders shared their health stories. We had so many testimonies that we did not have enough time to hear each one. Mr. László Kócsó had to wait a few minutes for his part because people were so enthusiastic and they didn't want to stop talking.

The most touching story was told by Mikolaj Androszczuk. He was a fireman in Chernobyl and the only survivor from his team. His grandfather used the herbs and because of this he is alive. Now Mikolaj promotes health speaking about Reishi and Cordyceps. He knows that they can strongly influence our health and improve our immune system.

Ms. Daisy Yuson in her second presentation gave very good pieces of advice on how to build our own professional image. She spoke about how to do good business presentations, how to talk, how to dress, and how to use our voice. It was a very high quality lecture.

This camp was an occasion for celebrating many new SA, SD qualifiers: Zdzisław Kubat, SD Bożena Banaczyk Piędel, ESD Mikołaj Androszczuk, SSD Alina Gronek. Big applause for them. Recognition is a main factor which enhances us to work better.

Thank you to all our speakers, participants and DXN for supporting this event. I hope to see you soon in Poland! Creative work + effective team = big results!

All the best for all DXN members! See you at the top!

Daxen Slovakia

8th Anniversary

Bratislava

DAXEN SLOVAKIA 8TH ANNIVERSARY CELEBRATION

The first Saturday of December 2019 was characterized in DXN Slovakia by the celebration of the 8th anniversary of the company foundation. Almost 60 DXN members and guests met in the pleasant atmosphere of Bratislava's Hotel Gate One with the aim to celebrate their eighth birthday and to spend this festive afternoon together.

WRITTEN BY
Viera Kavická

At the entrance, there was a Nicholas package waiting for each participant, which was a nice surprise for everybody.

At the beginning, all the guests and members were welcomed by the moderator of the evening, training manager Viera Kavická. The number eight is considered to be a symbol of finance, profit and success. She wished to all the team a prosperous and successful coming year. Everybody touched the glasses.

Mr. József Katona, the European marketing coordinator, was the first guest to speak. Subsequently, all the guests

were welcomed by the country manager, Mrs. Zuzana Kormanová, who in her presentation evaluated the year 2019 in terms of business results, such as sales, the number of registered members and the number of presentations. The marketing activities of 2019 were reviewed by Mrs. Viera Kavická. She presented also a plan of activities for 2020.

During the official part the most successful leaders were rewarded for their activities during the year 2019. They reviewed the outgoing year and expressed their thanks to their own teams.

The official part of the evening was closed by a performance of the multi-style violin master Marco Rajt, who

acquired a nickname the "Slovak Vanessa Mae in Trousers". The world-famous songs performed by this tal-

ented violinist such as Wind of Change by Scorpions and We are the champions by Queen captivated everyone.

warded by DXN products. Not only the winners of the competition, but also the winners of the lottery were remunerated with DXN products.

All the participants enjoyed the party, had fun and left the celebration satisfied with many experiences. And we in DXN look forward to the next celebration. Goodbye!

Then every participant sat down at the festive table and enjoyed the delicacies prepared by the hotel's chief cook.

The evening was concluded by a disco. An integral part of the evening program included also an evaluation of the competition for the best poem on the topic: DXN PRODUCTS. The winners of the competition were re-
